

Madbury, NH Water Treatment Plant

OWNER

City of Portsmouth, NH

ENGINEER

AECOM

PROJECT HIGHLIGHTS

Systems Integrator &
Control Systems
Supplier

This plant is the main water supply for the City. A completely new facility was constructed with EII acting as systems integrator and control systems supplier. This facility has operated trouble free since 2011. The new control systems also included a comprehensive radio telemetry system which controls tanks, wells and booster stations throughout the area.
